KITCHEN ACCESSORIES

Knives | Knife sharpener | Multifunctional scissors
Cutting boards | Graters

A sharp chef's knife is the most important tool in a cook's arsenal – whether you are a home chef or a pro. We have made sure that knives and scissors from our Atlas collection will provide you with the optimal experience when it comes to cutting your food.

They will always stay sharp with our Atlas knife sharpeners featuring two levels of sharpening knives (metal plate for coarse processing / white ceramic rods for fine finishing).

We offer you the best possible option for your knives with our Sham collection of cutting boards that have a specially designed antibacterial surface that acts gently on the blade of the knife.

Finally, when it comes to grating or slicing cheese and vegetables, the Sham graters are the perfect choice for this task.

ATLAS

SERIES

ONE-PIECE
Construction

SPECIALLY
Hardened Steel

Stainless steel blade and plastic handle with stainless steel insert. Made from strongest 18/10 stainless steel. Impeccable one-piece construction for durability and robustness

Atlas knives come with chic black handles with a matte metal insert to make sure that they look great in any kitchen, no matter the style

SPECIAL SHARPENING

All our knives are handmade using specially hardened steel (X30CR13/1.4028) and the blade also goes through additional sharpening during production which helps to retain the sharpness for an extended period.
